

OnLeash

Walk With Me, Talk With Me!

Positive social cohesion is the result of good communication & understanding. In a place such as Hong Kong, many minorities are mis-understood & neglected due to lack of communication, OnLeash is here to solve that.

OnLeash takes advantage of smart devices. Mixing a diversity of people from around the world and encouraging interaction. This set up of a safe, fair platform for virtual tours are to open up our perspectives towards

Let's Go For A Walk!

How It Works

The Host

To encourage the use of this new “hobby”, OnLeash is introducing a system where the host of tours are to set up their own price. This pricing could be based on conditions such as : the duration of the tour offered, what language(s) is the tour being hosted with, size of the tours & how many people are to join the tour.

Puppies

Puppies are to join tours or they could offer a price for desired locations for potential Hosts to answer to.

All Puppies would be given a feedback survey to fill in once tours are over, ALL TOURS ARE RECORDED and send back to us in eliminating any racist, sexual related comments or actions.

Look and Experience

The idea is nothing complicated & that goes the same for how it is presented ; we do not wish for our users to feel lost or insecure in a techy, icy looking layout.

All details regarding the tour you are to host or partake in are laid out with no extra complications & everybody is to get what they are expecting.

The Hosts however do make up most of the experience and that we are expecting tours of all varieties imaginable : Walking around neighborhoods, parks, festivals, haunted tours, concerts and exhibitions.

18+

There are certain places with more adult content and we have a strict guideline for Hosts to indicate such events and we are on a lookout for Hosts allowing under aged Puppies in to their tours.

Features

Host

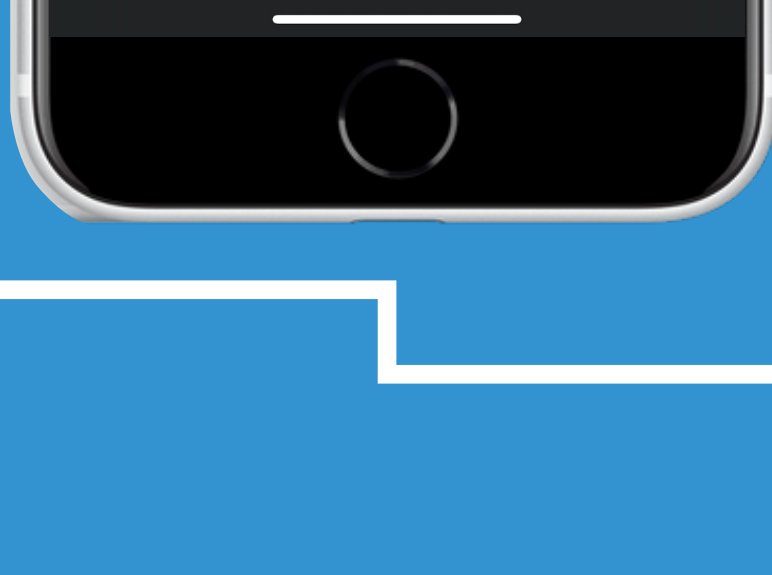

The battery level of The Host is displayed for Puppies to see, if the tour ends mid-way, we are expecting the bat to be the reason

Funds are only processed for the host to claim ONLY when tours are complete.

Convo

The translation feature is in place to overcome potential language barriers.

Slide down to hide all typing features and/or hold horizontal for full screen view.

Puppies

Showing the view cam of Puppies that are part of the tour, hold down to switch from one person to another or to kick people who mis-behave.

For every kick a small report regarding the action is expected from The Host.
